I'm a software developer with a passion for creating all kinds of web applications and games, as well as studying new technologies and programming languages. My goal is to extend my knowledge as much as I can, gain experience solving interesting problems and improve myself as a person. I'm always up for a challenge, so go ahead and offer me one!

Skills

- **Languages:** JavaScript, Java, SQL, HTML, CSS
- Experience in backend/server-side development with Node.js (Express)
- Work experience with React, Typescript and Redux
- Experience with Web applications, REST APIs and GraphQL
- Knowledge of OOP, Data structures & algorithms
- Working with relational (MySQL and PostgreSQL) and non-relational (MongoDB) databases
- Understanding and Experience with Version Control System (Git)
